

WILLIAM J. BEITZ, Jr. is in charge of architecture, construction administration and technical research for JPRA Architects, where he serves as President/COO of the firm. Mr. Beitz also serves as President/CEO of JPRA Architecture, ULC, which is currently conducting business in Canada. He received his Bachelor of Science in Architecture and Bachelor of Architecture Professional degrees from Lawrence Technological University. Mr. Beitz is a registered Architect in twenty-two states and the Provinces of Ontario and Alberta, Canada. He is a member of the American Institute of Architects; Michigan Society of Architects; the National Council of Architectural Registration Boards (NCARB); Ontario Association of Architects; Alberta Association of Architects; Royal Architectural Institute of Canada; The International Council of Shopping Centers, and the Engineering Society of Detroit. His background includes four years as an instructor of architecture in the construction systems sequence at Lawrence Technological University. He has also served on the AIA Professional Practice Committee, Detroit Chapter, and chaired a committee responsible in part for revision to Article 20 of the Occupational Code for Michigan Compiled Laws, which governs the practice of architecture, professional engineering and land surveying. Mr. Beitz has served as Principal-in-Charge for JPRA on projects including Somerset Collection in Troy, Michigan; Great Lakes Crossing in Auburn Hills, Michigan; the Detroit Opera House in Detroit, Michigan; the Shops at Willow Bend in Plano, Texas; Colorado Mills in Denver, Colorado; the Mall at Millenia in Orlando, Florida; the Shops at Oyster Bay in Long Island, New York; the Palladium Building in Birmingham, Michigan, The Gardens Mall in Palm Beach Gardens, Florida; CrossIron Mills in Calgary, Alberta, Canada and University Town Center in Sarasota, Florida

STEVEN BLEVINS is a graduate of the University of Tennessee School of Architecture with a Masters of Architecture degree (MARCH). Mr. Blevins is a registered architect and a member of the American Institute of Architects, and the National Council of Architectural Registration Boards (NCARB); he is also a LEED accredited professional (LEED AP). After 10 years of corporate practice serving corporate clients such as Eastman Kodak, Steven moved to beautiful Orlando Florida in 2001 where he joined the firm of Cuhaci & Peterson Architects, Engineers & Planners who specializes in commercial retail architecture. Steve is an Architectural Studio Manager and part owner of the firm. Steven oversees the firms BIM development and integrated discipline initiatives. Mr. Blevins specialty is grocery anchored retail centers and commercial office buildings.

MARK BULMASH joined Forest City Enterprises as Senior Vice President, Development in 2005. He oversees new projects for their East Coast Commercial Group. He is an active Urban Land Institute and International Council of Shopping Center member. Bulmash was recently appointed to the Penn Institute for Urban Research Board. Prior to joining Forest City, Bulmash spent 17 years at The Taubman Company, holding positions in property management, leasing, market research, financial analysis and construction. He spent the majority of his time in development where he ultimately rose to Group Vice President. Bulmash holds a Bachelor of Science degree in Architecture from the University of Michigan, a Master of City Planning degree from the University of Pennsylvania and a Master of Business Administration from the University of Pennsylvania's Wharton School.

STEVE CAIELLO, P.E. is Senior Vice President of Tenant Coordination for Westfield, LLC. He is a graduate of Penn State University with a degree in Architectural Engineering and is a licensed Mechanical Engineer in several states. He has 30 years of experience in the design and construction industries and is in his 22nd year with Westfield. Steve has held positions in the Design, Construction, Center Management, Project Controls and Leasing departments. Steve Rivers serves as Senior Vice President and General Manager of Hardin's Orlando, Florida office. He is responsible for overall administration and management of construction and pre-construction services as well as new business development in central Florida. A Hardin employee since 1988, Mr. Rivers has experience in a variety of construction arenas, including retail, hospitality, office and mixed-use developments. Drawing on his expertise in the construction of larger retail facilities such as the Mall of Georgia at Mill Creek in Atlanta and the Mall at Millenia in Orlando, Mr. Rivers provides executive guidance and problem-solving advice to operations managers in Hardin's Orlando office. He currently serves on the executive board and board of governors for the Orlando Regional Chamber of Commerce and on the board of Workforce Central Florida. He is an active member of the International Council of Shopping Centers, the Orlando Economic Development Council, Central Florida NAIOP, and is a past Board of Directors of Associated Builders and Contractors of Central Florida. Mr. Rivers holds a Bachelor of Science in Building Construction from the Georgia Institute of Technology in Atlanta, GA.

DERRICK B. CAVE, P.E. graduated in 1987 from Virginia Polytechnic Institute and State University (Virginia Tech) with a B.S. in Civil Engineering. Derrick has 21 years experience in the design of commercial, residential and industrial land development projects along with roadway improvement projects. He is a Principal with Kimley-Horn and Associates, Inc. as well as the Office Practice Leader for their office in Vero Beach, FL. He has been involved in the Land Development Design Initiative (LDDI) at Virginia Tech since its inception in 2005, and is currently a member of the LDDI Advisory Board as well as the Virginia Tech CEE Alumni Advisory Board.

RALPH DINOLA brings over 15 years of green building and design expertise to developers, building owners and design teams as principal with Green Building Services. Ralph excels at conducting project assessments and helping design teams devise integrated sustainable strategies and a clear plan of action. His creative vision, coupled with attention to budget and schedule, provides meaningful solutions that balance green building objectives with the owner and stakeholders' goals. Ralph's project focus includes office, retail, mixed-use and high-rise residential, historic and existing building renovation projects. A LEED faculty member, Ralph facilitates trainings, eco-charrettes and workshops on sustainability and green building practices across the country. He taught advanced green building technologies as adjunct faculty at the University of Oregon and is a featured speaker at national and international conferences, including GreenBuild. Recent and ongoing projects include, Mirabella CCRC, One Waterfront Place, Blue Cross Blue Shield of Tennessee Headquarters, the White Stag Block and Mercy Corps Global Headquarters.

DR. RANDY DYMOND, PE, CFM is an Associate Professor of Civil and Environmental Engineering at Virginia Tech, the Coordinator of the nationally recognized Land Development Design Initiative (LDDI) and the Founding Director of the Center for Geospatial Information Technology (CGIT). Dr. Dymond has over 25 years of experience in civil and environmental engineering instruction, research, consulting, software development, and Geospatial IT applications. Dr. Dymond has published more than 40 refereed journal articles and proceedings papers, and been the principal or co-principal investigator for more than 70 research proposals from many diverse funding agencies. His research areas include urban stormwater modeling, low impact development, watershed and floodplain management, hazard mitigation, geospatial visualization, and infrastructure GIS,. He teaches classes in GIS, land development design, hydrology, and water resources within the Department of Civil and Environmental Engineering at Virginia Tech.

TERRY FITZGERALD has been involved with the regional shopping center business for over 20 years, as a lawyer for his client The May Department Stores Company, as the head of Foley's division real estate, and as a development officer with the Mills Corporation and now Taubman Centers, Inc. He has been involved with development and redevelopment of dozens of super-regional shopping destinations around the country, and is now responsible for all U.S. predevelopment projects and new business opportunities with Taubman. His focus in recent years has been the integration of other uses into retail destinations as intensification of development has become the key to creation of successful, large-scale shopping venues. A graduate of Notre Dame and Stanford Law Schools, he is a member of ICSC and ULI, and now lives in Birmingham, Michigan.

NORMAN GARDEN has defined new design directions in domestic and international practice for his firm and his profession for more than twenty-five years. Mr. Garden possesses a bachelor's degree in Architecture from the University of Minnesota, and is an active member of AIA and ULI and is a LEED accredited professional. He is also a registered architect in over 50 jurisdictions, including California, New York, Florida and Texas. As Senior Vice President in the Los Angeles office of RTKL Associates Inc., Mr. Garden has created an outstanding portfolio of award winning venues throughout the United States and the Pacific Rim, including Westfield San Francisco Center, Sunnyvale Town Center, and City Crossing in Shenzhen, China. Integrating architecture and urban design as symbiotic elements of project development, his work generates the aesthetic and functional synergy that makes his projects successful from all perspectives - the visitor, the tenant and the owner. His in depth architecture skills ensure that he can create unique spaces and overcome any challenges that may arise in development.

MIKE HANLIN is the CEO and Treasurer for Hanlin Rainaldi Construction Corp. He is a graduate of The Ohio State University. Mr. Hanlin oversees the business development of the company, which includes marketing, client relations, estimating, bidding, contract negotiations and pre-construction. He has more than 25 years of commercial construction experience and several years of retail property management and development background. Mr. Hanlin has spoken to numerous corporate staffs and colleges at conferences on a variety of time management issues. He serves on many corporate and charitable boards.

JAMES B. HELLER joined ka in 1971 and has served as President since 1986. Heller's broad experience with enclosed malls and open-air centers; offices; residential; and mixed-use projects elicits a comfortable level of confidence in his clients. Heller's efforts on behalf of ka's clients have produced numerous corporate and commercial projects throughout the United States. Whether Heller is working on a corporate headquarters, office complex, major department store or a large shopping environment he sets the goals high for the staff at ka to exceed the expectations of every client. He offers unique abilities in land planning and site development, coupled with his meticulous attention to detail, and depth of relationships with industry leaders. He is an alumnus of the Leadership Cleveland Class of 2000 and is an active member of ICSC, serving on the CenterBuild Conference Program Committee and the CDP Admission and Governing Committee, receiving his CDP certification in 2008. He was also an invited juror for the 2006 Retail Traffic SADI Awards. Heller has a Bachelor of Architecture from Ohio State University. He is a member of NCARB, AIA and holds registrations in 42 states. He was listed in Outstanding Young Men of America 1980; inducted into the Beachwood Gallery of Success 1988; in 1976 was a founding Chairman of Young Leadership State of Israel Bonds, received the Israel Solidarity Award 1976/1977; and was honored with a James B. Heller Day on January 24, 1988 by the City of Beachwood, Ohio.

VAN MARTIN graduated from Baylor University and currently serves on the Baylor Business Network Advisory Board. He has over 25 years experience in the commercial construction industry and also serves on the board of National Association of Industrial Office Properties. He is a member of the Association of General Contractors, Associated Builders Committee, Urban Land Institute, International Council of Shopping Centers and previously served on the ICSC Center Build committee for 10 years. Van has gained a wide array of experience from working directly with national owners/developers and has extensive knowledge with contract negotiations, scheduling, problem-solving and personnel management. He brings unique perspective to the construction industry having worked for a national development company. Van initially joined Tribble & Stephens in 1986 in the San Antonio office and then rejoined Tribble & Stephens in January, 2006 as Chairman and Chief Executive Officer. The company has recently celebrated 40 years as a leader in retail construction and is well positioned to serve clients throughout the U.S.

MICHAEL E. MCCARTY is executive vice president of development operations of Indianapolis-based Simon Property Group, Inc., an S&P 500 company and the largest U.S. publicly traded real estate company. Simon Property Group is a fully integrated real estate company which operates from five retail real estate platforms: regional malls, Premium Outlet Centers®, The Mills®, community/lifestyle centers and international properties. The Company currently owns or has an interest in approximately 380 properties in North America, Europe and Asia. Michael joined Simon Property Group in 1979, serving in both management and leasing positions within the Company. In January 1995, he was promoted to the position of senior vice president of the newly created community center division, and became its president in 2000. He was promoted to his new position in 2007. Michael became an ICSC trustee in 2004, and a member of the ICSC Executive Committee this year, and is a former Indiana ICSC state director. Michael is a member of the Board of Directors for Simon Youth Foundation

DON A. MOSELEY, P.E., Director of Sustainable Facilities working on Prototype and New Format Developments within the Real Estate Division for Wal-Mart Stores, Inc. Don is currently engaged in and assisting with the leadership of the "Sustainable Buildings Network" at Wal-Mart. This network, among other things, is charged with reducing the energy and water needs of their developments both in the building and on the site. Prior to his current role, Don managed the design of Wal-Mart's Experimental Stores in McKinney, TX, and Aurora, CO, which both opened in 2005. Don also assisted with the design of Wal-Mart's domestic multi-level projects. Don has worked for Wal-Mart for the past 19 years and prior to Wal-Mart worked for the Arkansas Highway and Transportation Department. Don is a graduate of Vanderbilt University and David Lipscomb College, both of Nashville, TN, and is a registered professional civil engineer.

JON RATNER holds the position of Vice President of Sustainability Initiatives for Forest City Enterprises, Inc. In this capacity, Jon provides day to day leadership over a broad reaching initiative to improve the way in which Forest City practices Sustainability as a technology, a capability and a core value. In this role, Jon works directly with a Steering Committee made up of senior executive leadership and actively participates with all of Forest City's offices around the country to implement Sustainability related best practices and procedures. In addition to speaking nationally on the topic of sustainable development Jon served as Chairman of ULI's third annual green building conference, Developing Green: Integrating Sustainability with Success, in April 2007. Jon is also Vice-Chair at large of ULI's Sustainable Development Council, a member of NAIOP's green building task force and sits on the board of Entrepreneurs for Sustainability, a non-profit based in Cleveland, Ohio. Jon joined Forest City in 2002 and was formerly a development project manager working on mixed-use, office and multifamily projects on the redevelopment of the former Stapleton airport. Established in 1921, Forest City Enterprises, Inc., is a \$7.8-billion company recently rated by Fortune magazine as the top publicly traded real estate company, and is principally engaged in the ownership, development, acquisition and management of premier commercial and residential real estate throughout the United States. An NYSE-listed real estate company (NYSE: FCEA and FCEB), based in Cleveland, Ohio, its portfolio includes interests in retail centers, apartment communities, office buildings and hotels throughout the United States.

ALLAN L. RENZI, RA, NCARB, LEED AP, is a principal with Richard L. Bowen + Associates (RLB+A). As part of RLB+A's management team, Mr. Renzi has taken a lead role in managing the firm's architectural design initiatives and production process. This process includes the implementation of BIM technology. Mr. Renzi gives his complete attention to form, function and detail, working with the client and the design team to ensure a successful project. He has guided renovation and new construction projects for retail centers, government complexes and office buildings. His most recent projects include the new corporate headquarters for Developers Diversified Realty in Beachwood, Ohio, the FBI Field Office in Springfield, Illinois, the Walden Galleria mall redevelopment in Buffalo, New York and the Shops at White Oak Village near Richmond, Virginia. Before joining RLB+A in 1994 Mr. Renzi spent three years with Richard L. Fleischman + Associates, another Cleveland design firm. He is dual-degreed having earned both a Bachelor's degree in Architecture at Kent State University and a Bachelor's degree in Urban Geography at The Ohio State University.

JAMES P. WHITCOME is Vice President of Development for General Growth Properties. Mr. Whitcome joined General Growth in February of 2007. His primary role is to oversee and direct all current and future development activities for the mid-Atlantic region. Prior to joining General Growth, Mr. Whitcome served as Executive Vice President of Capital Services and Associate Director of Development for The Mills Corporation in Washington DC. From 1989 to 1995, Mr. Whitcome served as Senior Vice President of Capital Improvements for St. Louis-based Center Mark Properties. From 1981 to 1989, he was employed by The Rouse Company as Vice President of Engineering and Construction, where he directed the engineering, construction and tenant coordination of The Rouse Company's development projects. As Vice President, Mr. Whitcome directed the construction activities of General Growth Development Corporation during the 1970s. Mr. Whitcome was born in Albert Lea, Minn., and was raised in northern Iowa. He received his Bachelor of Science degree from Iowa State University.
