

2009

Application and Application Handbook

CDP

CERTIFIED DEVELOPMENT, DESIGN AND CONSTRUCTION PROFESSIONAL

NEW FOR 2009!

ICSC now offers the CDP Examination at over 400 computer testing centres around the world. Computer based testing provides candidates with benefits like flexible schedules, convenient test locations, immediate score reports and the confidentiality you deserve.

See page 14 in this application handbook for a list of cities that will offer computer based testing through a local test centre.

CERTIFIED DEVELOPMENT, DESIGN AND CONSTRUCTION PROFESSIONAL (CDP)

CDP TEST REVIEW COURSE

ICSC is offering CDP Test Review Courses to candidates seeking to achieve the designation of Certified Development, Design and Construction Professional.

More than just a review, the courses are designed to familiarize the student with test-taking techniques and provide a review of test specifications. Practice tests will be administered under simulated test conditions and scoring for the examination will be reviewed.

Convenient and Practical

The CDP Test Review Courses are offered in conjunction with major ICSC meetings, and are generally two hours in length. You can attend the meeting of your choice, and while there, set aside just a few hours to take advantage of this educational opportunity.

Fees

\$75 Member (USD); \$100 Non-member (USD) If you plan to take the CDP certification examination in 2009, we encourage you to take advantage of this valuable opportunity to reinforce on your knowledge and get hands-on experience in test-taking techniques.

How to Register

Return your completed registration form with a check made payable to ICSC. For faster registration you may, register at www.icsc.org or fax the registration form, to: +1 732 694 1800, (credit card orders only).

Cancellations

Cancellations received ten business days prior to the scheduled review course will be subject to a \$25 cancellation fee. No refunds will be given for cancellations received three business days prior to the review course. All requests for refunds must be received by ICSC in writing.

ICSC reserves the right to cancel any review course. In the unlikely event ICSC deems it necessary to cancel a course, the registration payment will be fully refunded.

2009 Calendar of Test Review Courses

Date	Time	Location	ICSC Meeting
Sunday, March 8	University of Shopping Centers	Philadelphia, PA	3:00 - 5:00 pm
Sunday, March 22	John T. Riordan School for Professional Development	Scottsdale, Arizona	3:00 - 5:00 pm
Tuesday, April 21	European Conference	Barcelona, Spain	3:00 - 5:00 pm
Sunday, May 17	RECon: The Global Retail Real Estate Convention	Las Vegas, NV	9:00 - 11:00 am
Sunday, June 7	John T. Riordan School for Professional Development	Dubai, U.A.E.	5:30 - 7:00 pm
Monday, June 15	John T. Riordan School for Professional Development	New Delhi, India	5:30 - 7:00 pm
Monday, July 6	John T. Riordan School for Professional Development	Guayaquil, Ecuador	5:30 - 7:00 pm
Sunday, August 16	Florida Conference	Kissimmee, FL	3:00 - 5:00 pm
Tuesday, September 29	RetailGreen Conference	Denver, CO	3:00 - 5:00 pm
Wednesday, October 28	Chicago Deal Making	Chicago, IL	3:00 - 5:00 pm
Wednesday, December 2	CenterBuild Conference	Phoenix, AZ	9:00 - 11:00 am

CERTIFIED DEVELOPMENT, DESIGN AND CONSTRUCTION PROFESSIONAL (CDP)

Who Should Apply

Individuals who have been actively engaged in the development, design and/or construction of shopping centers for at least five years, preferably in one of the following professions: architect, engineer, general contractor/construction manager, facilities manager, retail store planner, retail construction manager. These individuals may represent an independent contractor, a retail organization or a property owner.

The Benefit of Certification for Individuals, Employers and Clients

A recipient of ICSC's prestigious CDP designation is recognized as someone who possesses in-depth experience, skills, knowledge and understanding of development, design, construction and operations of shopping centers and other retail-related facilities. The CDP Certification Program identifies a person who has taken the time and made the effort to gain a very high level of expertise in the entire retail development process. The CDP designation is a distinction over and above the specialty professional designations commonly held by architects, engineers and contractors. Those specialty professional designations indicate an ability to design and construct, while the CDP designation signifies that a person's knowledge and abilities specifically pertain to retail development, design and construction. When working with a CDP, clients and employers will know that certified individuals have pledged to abide by a Code of Professional Ethics and moral standards in their business relationships, and that those individuals are knowledgeable and highly trained professionals who specialize in retail development, design and construction. Those with the prestigious CDP designation are recognized as professionals who have demonstrated their experience and knowledge in retail development, design and construction, and are held in the highest esteem within the retail industry and business world.

Background

At the request of ICSC members in the development, design and construction management field, ICSC has established the Certified Development, Design and Construction Professional (CDP) for design and construction specialists. The program is designed to elevate professional standards, enhance individual performance and designate those who demonstrate knowledge essential to their respective practices of shopping center expertise.

Objectives

The objectives of the CDP Program are:

- To raise the professional standards and improve the practice of shopping center development, design and construction by giving special recognition to those properly qualified professionals with responsibility for the development, design and/or construction of shopping centers, who, by meeting prescribed qualifications of experience and by passing a written examination, have demonstrated a high level of competence for the designation of Certified Development, Design and Construction Professional (CDP).
- To instill knowledge of the principles and practices of design and construction and to encourage an ethical code of conduct.
- To establish education and/or experience criteria to qualify for this designation now and in the future.
- To encourage others in training for careers in shopping center development, design and construction.
- To foster cooperation and better understanding among the various parties (owners, architects, engineers, general contractors, construction managers, facilities managers, retail store planners, customers and local government officials) involved in the development, design and construction process.

- To encourage shopping center development, design and construction professionals in a continuing program of professional development.
- To advise and participate in such seminars, meetings and education programs as may be necessary to foster these objectives.
- To establish and maintain educational standards for the profession.

Qualifications

- Candidates must be, or have been, active in a position that is directly responsible for development, design and/or construction of shopping centers as an owner representative, development manager, project manager or tenant coordinator, architect, engineer, general contractor, construction manager, facilities manager, retail store planner, or retail construction manager.
- Candidates must have a minimum of five years* of active, full-time experience in shopping center development, design and/or construction. The time period of experience will be calculated up to one month before a candidate's test window of interest: up to May 21, 2009 for the June 20-27 test window, and up to September 19, 2009 for the October 17-24 test window. Employment dates will be verified. *Applicants may substitute for the fifth year of experience the completion of ICSC Development, Design and Construction Institute or the University of Shopping Centers School of Development, Design and Construction.
- CDP Rules and regulations may be found at <http://www.icsc.org/srch/education/awards/profaccredindex.php>

Earning Your CDP

The CDP Program is a three-part process based on your experience and knowledge. Completing the application is the first step. Sitting for the examination is the second step. After achieving the designation, the third step is maintaining the designation through continuing professional education.

CDP Examination

The CDP Examination is an experience- and knowledge- based, computer-administered examination consisting of 100 multiple-choice questions, which the candidate must answer in approximately three-and-one-half hours. Questions are written by specially appointed ICSC Committees based on the examination content outline. The committees are made up of a large group of industry professionals from many parts of the world working together with Prometric, a test development company based in Princeton, New Jersey. The ICSC Committees are responsible for developing test questions and maintaining each test's content standards and category specifications. Prometric specialists assemble the approved questions into proper test format, administer the examination, and are responsible for scoring and score reporting. The CDP Examination is offered every year.

Continuing Education

Once the CDP designation has been achieved, a mandatory program of continuing education must be pursued by the applicant in order to maintain the CDP designation. Every three years, the certified individual must submit an application providing information about his/her participation in continuing education involvement. This can be achieved by attending programs given by ICSC— such as CenterBuild Conference, and non-ICSC programs that enhance a professional's knowledge (e.g., Mandatory Continuing Education [MCE] for Licensure given by other professional organizations).

Three years after achieving the CDP designation and maintaining the mandatory credits toward continuing education, certification holders may apply for the Senior Level Certified Development and Construction Professional (SCDP) designation.

Test Locations and Dates

The CDP Examination will be administered at computer test centers located globally during the following test windows:

June 20-27, 2009

Registration Deadline: May 26, 2009

October 17-24, 2009

Registration Deadline: September 11, 2009

Registration Deadlines: These are the dates by which the ICSC must receive examination applications and all accompanying materials. All applications are reviewed by the appropriate Committee designees, and the candidates are notified prior to the desired test window as to whether or not they qualify to take the examination.

Location: Prometric Testing Centers throughout the world. For a list of ICSC computer-based testing locations, please visit ICSC's website, www.icsc.org – go to Education & Careers, view the Education menu and click on Certification Programs.

Scheduling an Appointment: Once your application has been approved you will receive an eligibility ID which allows you to schedule your preferred date and location to take the exam. Please visit the ICSC website as outlined above to schedule your appointment. All candidates are scheduled for 4.5 hours in order to accommodate administrative tasks prior to the start of the examination.

Fee

The fee for taking the examination is \$495 for ICSC members; \$990 for non-members. Your payment must accompany the application. To qualify for the member fee, the candidate must be an ICSC member and not just an employee of a member firm. Call the ICSC Information Center at +1 646 728 3800 if you are not certain about your membership status.

Applications

Candidates must submit original, notarized applications. Applications that are faxed in, missing accompanying materials, or incorrectly filled out will be returned to the applicant.

Before submitting an application for consideration, use **this checklist** to ensure that you have done the following:

- Listed your experience in chronological order, listing your most recent experience first?
- Included a complete job description – with exact dates of employment – for each position you plan to use to fulfill the requirements?
- Had your application signature witnessed by a notary public?
- Enclosed payment for the examination fee? (Checks must be made payable to ICSC in U.S. funds, drawn on a U.S. bank.)
- Made a copy of your completed application for your records?

Please Note: If you took the CDP exam in 2008 but did not pass, or if you were found eligible to sit for the examination but did not take it, you may complete **only page 6** of this application and submit it to ICSC with the examination fee.

Cancellations and Refunds

All cancellations will be subject to a minimum of \$25 cancellation fee. No refunds will be given for cancellations received after June 6, 2009 for the June 20-27, 2009 test window, or after October 3, 2009 for the October 17-24 test window. All requests for refunds must be received by ICSC in writing.

If, after your application is received, the CDP Committee determines that you are not eligible to sit for the examination, you will be issued a refund of the examination fee minus a \$25 administrative fee. Your refund will be issued prior to the test window for which you applied, providing ICSC receives the examination payment before the deadline. ICSC examinations are experience- and knowledge-based. Therefore, ICSC strongly recommends that candidates carefully review exam eligibility requirements before submitting their applications. Ensuring that your qualifications meet all exam eligibility requirements will not only expedite the review process but also will allow you to receive timely approval to take the exam. A candidate who does not meet the minimum qualifications will not be permitted to take the exam.

Other Exam Information

Calculator

You may use a financial calculator with an internal rate of return and compound interest rate function, but are not required to use one. Please note that only silent, handheld, solar-powered or battery-operated calculators (without extended memory/storage, paper tape printing capabilities, or alphabetic keypads) may be used.

Allowed financial calculators:

* HP models: 10BUUm 12C, 12C Platinum and 17BII

* Texas Instruments models: BAII Plus Financial and BAII Plus Professional

Testing Scoring and Reporting

Unsuccessful candidates will receive summary reports that list the diagnostic score for the examination's content areas. Successful candidates will receive notification of their passing status only.

Pass/Fail Standard

The passing standard is a pre-determined standard of knowledge set by a criterion-referenced methodology. A candidate's score on the test will be based on the number of multiple-choice questions answered correctly; thus, you should answer all questions, as there is no penalty for guessing. Using this methodology, there is no curve and candidates do not compete against each other. There is no limit on the number of candidates who may pass or fail the examinations. Additional information about this scoring method is provided in the Candidate Information Bulletin.

Re-examination

If a candidate fails to achieve a test score equal to or above the pass/fail standard, the candidate may retest during the next examination period. Candidates will remain eligible to sit for the examination for one year after being notified of eligibility. There are no limitations on the number of times candidates may take the examination as long as the candidate remains qualified.

News Releases

ICSC issues news releases on successful candidates to national and local media. Please indicate on your application whether you and your company give ICSC permission to include your name in its release.

Auxiliary Aids

Any disabled individual desiring an auxiliary aid for this examination should notify ICSC at least six weeks prior to the examination.

Preparing to Take the Examination

Prepare for the examination by choosing the study method that best suits your schedule and learning style — independent study or group study. Some people find that attending ICSC and other education programs, including their own company programs, is helpful in their preparation and study.

Independent Study

Many successful candidates develop their own method of study. Reviewing the topics on the content outline in conjunction with ICSC publications, and applying the professional literature to personal experience, are the keys to success.

ICSC Support

Many of ICSC's established programs support the CDP Program by helping candidates become familiar with the body of knowledge of shopping center development, design and construction. ICSC offers the following new and established programs:

- **Test Review Courses**

ICSC in conjunction with Prometric has developed a CDP Test Review Course designed to familiarize the student with test-taking techniques, as well as provide a review of the test content areas. Practice tests are administered under simulated test conditions, and the scoring for the examination is reviewed.

- **John T. Riordan School for Professional Development**

The School for Professional Development, through its Certificate Program, offers a wide range of courses via week-long Institutes in shopping center management, marketing, leasing, and development.

- **University of Shopping Centers**

The University offers candidates the opportunity either to enhance expertise in a present area of interest or to delve into new ones.

- **Finance for Non-Financial Professionals**

This comprehensive one-and-one-half day seminar will demystify finance for the non-financial shopping center professional.

- **Leasing for Non-Leasing Professionals**

This comprehensive one-and-one-half day seminar will demystify leasing for the shopping center professional.

- **Law for Non-Lawyers**

This comprehensive one-and-one half day seminar will demystify law for the shopping center professional.

- **Study Groups**

Only groups sponsored or organized by ICSC to prepare for the examination are endorsed by ICSC. ICSC is not responsible for any information given in study groups not endorsed by the organization.

Study Aids

Study aids are designed to help candidates gain an understanding of the eight broad subject areas, and their sub-areas, which are covered on the examination. However, candidates are responsible for keeping up to date on any relevant changes or significant developments in the field of shopping center development, design and construction. Candidates are responsible for demonstrating knowledge and experience derived from on-the-job practice defined by the content outline and should design the preparation process, using such reference materials, as they deem appropriate and necessary. The ICSC Certification Program is not designed for entry-level shopping personnel. The levels of experience reflected in the eligibility requirements are the minimum needed for the examination. For successful completion, the examination requires both knowledge and relevant experience. For more information on these education programs, visit ICSC's homepage www.icsc.org or call the ICSC Information Center at +1 646 728 3800.

CDP e-PRACTICE TEST

Take a brief exam on your PC in the privacy of your home or office. The e-Practice Tests were developed to give potential certification candidates an instant opportunity to learn how the exam questions are structured, and to highlight the candidates' strengths and weaknesses in the subject matter which will assist them in their planning and preparation for the lengthier exam. The items in the e-Practice Tests have appeared on previous examination administrations and reflect a sample of content and difficulty levels a candidate would find on actual exams.

Note: The e-Practice Test contains 15 items which are available in two modes. In the exam mode, after completing all 15 items, you will be instructed as to how many items you answered correctly and receive feedback as to whether you answered the question correctly or incorrectly with an explanation of the correct answer.

The study mode provides immediate feedback as to whether you answered the questions correctly or incorrectly, with an explanation of the correct answer once each item is completed.

Each e-Practice Test candidate has access to his/her designated e-Practice Test for 24 hours (one day), which begins from the moment of the initial logon time to the service.

Free to ICSC Members.

To sign up for an e-Practice Test, register online at www.icsc.org, go to the Education & Careers menu and click on Certification Program. E-Practice Tests are free to ICSC Members.

CDP EXAMINATION CONTENT OUTLINE

Following is a detailed outline of the major content areas of the examination, with an indication (in parentheses) of how much of the exam is devoted to each area. The questions on the examination will reflect an integration of these areas. The content outline was derived from an extensive study that defined the knowledge and experience needed for a qualifying candidate to hold the CDP designation, which demonstrates a broad knowledge across various disciplines involving development, design and construction of retail real estate. Prometric and the CDP Committee worked together to define these specifications.

1. Pre-Development (20%)

- 1.1 Retail basic knowledge (e.g., regional centers, mixed use, basic layout, etc.)
- 1.2 Site selection & acquisition
- 1.3 Typical lease language for tenant buildout and landlord requirement
- 1.4 Real estate agreements
- 1.5 Due diligence process (e.g., new construction versus remodel or renovation)
 - 1.5.1 Surveys and topos
 - 1.5.2 Environmental
 - 1.5.3 Geotechnical
 - 1.5.4 Ecological
 - 1.5.5 Existing conditions
 - 1.5.6 Zoning
- 1.6 Entitlements
- 1.7 Governmental coordination
- 1.8 Lender requirements and public financing
- 1.9 Pro forma

2. Design (20%)

- 2.1 Design phases (basic and additional services)
- 2.2 Construction documents & specifications phase
 - 2.2.1 Architectural
 - 2.2.2 Mechanical/electrical/plumbing
 - 2.2.3 Structural
 - 2.2.4 Civil/site improvements
 - 2.2.5 Fixtures and amenities
 - 2.2.6 Landscaping
 - 2.2.7 Graphics
- 2.3 Standard design contract documents (e.g., Associated General Contractors of America [AGC], American Institute of Architects [AIA], and other types)
- 2.4 Single store vs. rollout program/design and construction
- 2.5 Design principles specific to retail (owner's program)
- 2.6 Materials and finishes; interior and exterior
- 2.7 Lighting; interior and exterior
- 2.8 Sustainable designs (e.g., Leadership in Energy and Environmental Design [LEED] certification)
- 2.9 How design and construction impact routine and preventive maintenance

3. Construction/Construction Management (20%)

- 3.1 Construction process (pre-construction, construction & post-construction activities)
 - 3.1.1 Pre-qualifications
 - 3.1.2 Pre-bid & bid phases
 - 3.1.3 Contract award phase
 - 3.1.4 Pre-construction
 - 3.1.5 Mobilization & construction phases
 - 3.1.6 Construction close-out phase
 - 3.1.7 Quality control

- 3.1.8 Standard documentation
- 3.2 Standard construction contract documents (e.g., Associated General Contractors of America [AGC], American Institute of Architects [AIA], and other types)
- 3.3 Value engineering/systems analysis/facilities management
- 3.4 Construction delivery methods
- 3.5 Safety management (e.g., Experience Modification Rating [EMR])
- 3.6 Project scheduling and phasing
- 3.7 Project access and public safety
- 3.8 Construction in an operating property (e.g., access, dust and noise control, signage)
- 3.9 Labor/materials issues
- 3.10 Construction budgeting/estimating
- 3.11 Engineering activities
 - 3.11.1 Testing and inspections
 - 3.11.2 Environmental remediation (asbestos abatement, soils and ground water remediation)
 - 3.11.3 Storm water best management practices
- 3.12 Project commissioning/turnover

4. Retail Store Planning (10%)

- 4.1 Lease outline drawings and condition of premises
- 4.2 Appearance and traffic flow
- 4.3 Electrical, mechanical, plumbing and physical requirements
- 4.4 Storefront and signage, including prototypical tenant design
- 4.5 Landlord/tenant scope of work
- 4.6 Landlord design and construction criteria
- 4.7 Tenant fixturing and visual merchandising

5. Tenant Coordination (10%)

- 5.1 Key points in lease
- 5.2 Tenant design criteria
- 5.3 Tenant plan reviews/approval
- 5.4 Permitting
- 5.5 Tenant construction administration/contractor guidelines
- 5.6 Tenant close-out procedures
- 5.7 Schedule management

6. Codes/Rules & Regulations (5%)

- 6.1 Government regulatory approvals, variances, and compliance
- 6.2 Accessibility and worker safety standards and compliance
- 6.3 Building and energy codes (e.g., heating, ventilation, and air conditioning [HVAC] requirements) specific to use
- 6.4 Building and occupancy permits
- 6.5 Municipal management (local codes/laws)
- 6.6 Life safety systems

7. Project Cost Management (10%)

- 7.1 Budget development and forecasting
- 7.2 Ongoing cost reporting
- 7.3 Change order management
- 7.4 Pay application process

8. Legal/Insurance/Ethics (5%)

- 8.1 Lease legal
- 8.2 Real estate agreements (e.g., construction, operation and reciprocal easement agreements [COREA])
- 8.3 Insurance requirements (landlord/owner, tenant, contractor, lenders, design professionals)
- 8.4 Lien waivers/lien laws
- 8.5 Business ethics
- 8.6 Dispute resolution

CDP EXAMINATION SAMPLE QUESTIONS

1. As a general rule, one would expect a regional center to have at least a
 - A. Restaurant
 - B. Movie theater
 - C. Department store
 - D. Grocery store
2. Which of the following is NOT an objective of a global retail chain's "roll-out" program?
 - A. Maintain design consistency on a multi-national basis
 - B. Standardize costs
 - C. Increase brand penetration in new markets
 - D. Test a new concept
3. How many cubic yards of concrete should be used when placing a sidewalk 4 feet (1.2192 metres) wide by 100 feet (30.4800 metres) long at a depth of 4 inches (10.16 centimetres)?
 - A. 4.95 cubic yards (3.78 cubic metres)
 - B. 59.26 cubic yards (45.308 cubic metres)
 - C. 133.32 cubic yards (101.930 cubic metres)
 - D. 199.56 cubic yards (152.584 cubic metres)
4. One important aspect of a trade fixture is:
 - A. That it is designed and built specifically for a retail tenant's business, usually is not attached to walls or floor, and usually is removed when the tenant vacates.
 - B. Its unique flexibility for relocating the fixture from one tenant space to another, usually then being easily attached to the walls and/or floors.
 - C. That it is installed by a labor union tradesperson, who performs the installation by attaching it to the leased premises walls and/or floors.
 - D. The method in which it is permanently attached within the tenant space, and is usually left behind at lease expiration.
5. Which of the following is considered a turnkey delivery?
 - A. The landlord constructs base building and tenant constructs tenant improvements at tenant's cost.
 - B. The landlord constructs base building and tenant improvements at landlord's cost.
 - C. The tenant receives tenant improvement allowance (TI allowance) and constructs its own space.
 - D. The tenant constructs base building and tenant's improvements at tenant's cost.

Multiple Choice Sample Questions – Answer Key
1. C, 2. D, 3. A, 4. A, 5. B

CODE OF PROFESSIONAL ETHICS**Preamble**

The purpose of this Code of Professional Ethics is to further the professional stature of those engaged in the profession of shopping center development, design and construction by adherence and dedication to principles beneficial to the relationship, fellow CDPs, clients, customers and the shopping center industry.

A CDP shall be bound by the following pledge:

I pledge myself to the advancement of professionalism within shopping center development, design and construction through the auspices of Certified Development, Design and Construction Professionals.

I pledge to seek and maintain an equitable, dignified and cooperative attitude with the fellow CDPs and with all others who may be part of my professional and business life.

I pledge myself to place honesty and integrity above all else and to pursue my gainful efforts with diligence and dedication so that all clients will be served in accordance with the highest possible standards of Certified Development, Design and Construction Professional.

I pledge myself to comply with and foster this Code of Professional Ethics.

ARTICLE I

This Code of Professional Ethics for Certified Development, Design and Construction Professional shall be incorporated into and made part of the Rules and Regulations of CDP and be considered a part thereof.

ARTICLE II

A CDP shall not use or permit to be used the CDP Designation or emblem in any manner that will adversely affect the professional standards or objectives of Certified Development, Design and Construction Professional.

ARTICLE III

A CDP shall not make or encourage derogatory statements, written or oral, concerning another CDP or his/her business activities.

ARTICLE IV

A CDP shall not commingle moneys which he/she has collected on behalf of clients or which have been entrusted to him/her by clients to be held in escrow accounts.

ARTICLE V

A CDP shall not engage in any activity that might be considered a conflict of interest with any client's interest unless such client first has been advised of the facts and circumstances and has approved of such activity.

ARTICLE VI

A CDP engaged in a project on behalf of a client shall not ask for or receive directly or indirectly any rebate, discount, fee or commission, monetary or otherwise, without the prior written consent of the client concerned.

ARTICLE VII

A CDP shall not disclose to any party information concerning a client's business affairs without prior written consent of the client.

ARTICLE VIII

A CDP shall at all times keep proper financial and other records concerning the development, design and/or construction of the shopping center properties in accordance with good business practices and professional standards of Certified Development, Design and Construction Professionals.

ARTICLE IX

A CDP shall at all times develop, design and construct shopping center properties consistent with the highest standards possible and in compliance with all applicable codes, regulations and laws as well as consistent with obtaining the highest possible income for his/her clients.

SUGGESTED READING FOR THE EXAM

Supplement your learning with ICSC's collection of publications—
the most effective training tools in the shopping center industry!

Certified Development, Design and Construction Professional (CDP) Handbook

This handbook is an essential study tool for those planning to take the CDP examination. Each chapter is written by a shopping center professional who is experienced in the principles and best practices of development, design, and construction. Concepts and procedures are discussed in depth and are supported by illustrations and charts. Tests aides are presented throughout the book, and a useful glossary at the end provides definitions of key terms.

Item #302 / Book \$59.95
ICSC Members \$49.95

Shopping Center Management

A comprehensive volume covering all of the major areas on shopping center management. This book includes topics such as insurance and risk management, leasing, security, maintenance, marketing, crisis management, legal issues and more.

Item #173 / Book \$59.95
ICSC Members \$49.95

Shopping Center Leasing

This comprehensive volume presents an in-depth examination of the major areas involved in leasing a shopping center. Among other topics covered are merchandise mix, prospecting for tenants, understanding and negotiating rents, and project economics.

item #185 / Book \$59.95
ICSC Members \$49.95

Certified Shopping Center Manager (CSM) Handbook

An excellent resource for shopping center professionals seeking generally accepted principles and practices on shopping center management. Use this handbook as a quick refresher, as a study guide and as a constant companion in your professional life.

Item #205 / Book \$99.95
ICSC Members \$79.95

Market Research for Shopping Centers

Provides shopping center professionals with a tool to help understand and utilize market research for their shopping centers — from methodology to an in-depth look at how market research best serves the development, management, marketing, leasing and retail functions.

Item #226 / Book \$39.95
ICSC Members \$29.95

Shopping Center Study Lease

This is your guide to understanding and writing a shopping center lease. Includes commentary on demise of premises, operating costs, taxes and much more.

Item #210 / Report \$39.95
ICSC Members \$29.95

ICSC's Dictionary of Shopping Center Terms, Third Edition

Completely revised and expanded, this is your instant reference to the language of the shopping center industry. Inside you'll find key terms, acronyms and abbreviations from the many disciplines that impact the shopping center industry.

Item # 261/ Book \$39.95
ICSC Members \$29.95

Finance for Shopping Center Nonfinancial Professionals

Read this book to learn the mechanics of how to do financial calculations and develop the skill of understanding what they mean — even if you are not a "numbers" person. Included are many easy-to-understand exhibits, sample lease clauses and key concepts.

Item #170 / Book \$79.95
ICSC Members \$59.95

Shopping Center Tenant Coordination

This reference manual provides a complete guide to the tenant coordination process in expediting store openings and facilitating open communication between the tenant, landlord and project team during the construction phase of retail space.

Item #259 / Book \$59.95
ICSC Members \$49.95

RULES AND REGULATIONS

ARTICLE I. GENERAL PROVISIONS

1.01 Designation

There is hereby created the designation of Certified Development, Design and Construction Professional (CDP) of the International Council of Shopping Centers (ICSC), to be awarded to those persons who qualify pursuant to these rules and regulations.

1.02 Objectives

- a) To raise the professional standards and improve the practice of shopping center development, design and construction by giving special recognition to those properly qualified professionals with responsibility for the development, design and/or construction of shopping centers, who, by meeting prescribed qualifications of experience and by passing a computer-based examination, have demonstrated a high level of competence for the designation of (CDP) Certified Development, Design and Construction Professional.
- b) To instill knowledge of the principles and practices of design and construction and to encourage an ethical code of conduct.
- c) To establish education and/or experience criteria to qualify for this designation now and in the future.
- d) To encourage others in training for careers in shopping center development, design and construction.
- e) To foster cooperation and better understanding among the various parties (owners, architects, engineers, general contractors, construction managers, facilities managers, retail store planners, customers and local government officials) involved in the development, design and construction process.
- f) To encourage shopping center development, design and construction professionals in a continuing program of professional development.
- g) To advise and participate in such seminars, meetings and education programs as may be necessary to foster these objectives.

1.03 Emblem

The Board of Trustees of ICSC or the Committee established in Article V hereof (the Committee) may adopt an emblem as the official emblem to be used only by designated persons in such manner as prescribed herein or otherwise by the Board of Trustees. The right of any person to use the emblem may be revoked by the Board of Trustees in accordance with the provisions of Section 3.04 of these rules and regulations.

ARTICLE II. QUALIFICATIONS AS CERTIFIED DEVELOPMENT, DESIGN AND CONSTRUCTION PROFESSIONAL

2.01 Professional Designation – CDP

Upon notification by an independent testing organization that an individual has passed the examination described in Section 2.03 hereof, or pursuant to a decision of the Board of Trustees after review by the Appeals Committee, the professional designation CDP (Certified Development, Design and Construction Professional) shall be conferred by the Committee.

2.02 Qualifications

In order to qualify for the designation CDP, a person must meet the following requirements, standards and such additional requirements as may be established from time to time by the Board of Trustees or the Committee.

- a) Applicant must be or have been active in a position directly responsible for development, design and/or construction of shopping

centers as an owner representative, development manager, project manager or tenant coordinator, architect, engineer, general contractor, construction manager, facilities manager, retail store planner or retail construction manager.

- b) Applicant must have at least five years of active, full-time experience in shopping center development, design and/or construction. One of the five years of required experience may be substituted with educational training in a related field as approved by the Committee.
- c) Applicant must achieve a passing score on the computer-based CDP Examination.
- d) Once the CDP designation has been achieved, a mandatory program of continuing education must be pursued by the applicant in order to maintain the CDP designation.
- e) Applicant must submit an application on the official application form, which shall be reviewed by the Committee or a designee thereof.
- f) Applicant must pledge in writing to abide by these rules and regulations and the Code of Professional Ethics.
- g) Applicant must establish to the satisfaction of the Committee a reputation for integrity and ability, and good moral character verifiable with satisfactory business references.
- h) Applicant must submit with his/her application the fees prescribed in Section 4.01.
- i) Applicant must submit a signed irrevocable waiver of any and all claims against the International Council of Shopping Centers, Inc., or any of its members individually or as a group, arising out of or resulting from any official act in connection with the designation or certification of a Certified Development, Design and Construction Professional.

2.03 Examination

A computer-based examination will be given by an independent testing organization with the guidance and under the supervision of the Committee, at such times and places as the Committee may determine. The examination shall be of such scope as to test the candidates' knowledge of proper shopping center development, design and construction principles and practices.

2.04 Notification

The independent testing organization shall notify each candidate as to whether or not the candidate passed the examination and a designee of the Committee shall notify the Committee of the names of those that passed the examination. The Committee shall, in the absence of any objection, award the CDP designation to those persons who passed the examination. Any objection shall be considered by the Committee to determine if the person meets the requirements of the CDP designation. Those candidates who were not awarded the designation will be notified of the reasons thereof.

2.05 Appeals

- a) There shall be an Appeals Committee composed of five members of the ICSC, appointed by the President, at least one of whom is a member of the ICSC Board of Trustees, and at least one of whom is a CDP. Three members of the Committee are required for a quorum.
- b) Any candidate for the designation who completes a computer-based examination and whose designation as a CDP is not awarded by the Committee may appeal the decision of the Committee to the Appeals Committee by following the procedures set forth in this section.
- c) All appeals shall be filed within sixty (60) days after receiving notice of the action taken by the Committee pursuant to Section 2.01 of this article. Appeals shall be filed by giving written notice to the Chairmen of the Appeals Committee and the Committee.
- d) Before the application deadline for the next administration of the CDP examination, the Appeals Committee shall review the appeals

notice and determine whether there are sufficient grounds for appeal. If sufficient grounds exist, the Appeals Committee shall hold a hearing at which each of those candidates who has filed appeals may appear. Each candidate shall be given an opportunity to persuade the Appeals Committee that the decision of the Committee should be altered. The grounds for appeal shall be limited to one or both of the following causes:

- 1) That a candidate believes he/she was discriminated against on the basis of age, sex, race, religion, national origin, handicap or marital status.
- 2) That some irregularity occurred in the examination procedures, which may have caused the candidate to fail the examination. The appeals procedure shall in no manner be construed as a re-examination.
- e) Following the hearing, the Appeals Committee shall recommend appropriate actions to the Board of Trustees, which shall make the final decision on the appeal. The Committee shall prepare a written explanation of its decision. The candidate will be notified of the Committee's recommendation and the final decision of the Board of Trustees within ten (10) days of such decision.

**ARTICLE III.
MEMBERS: USE OF TITLE**

3.01 Certification

Shall be limited to persons qualifying for the professional CDP Designation.

3.02 Certificate

Each person qualifying for the CDP designation shall receive an appropriate certificate.

3.03 Use of Title

Persons certified pursuant to these rules may be identified by the CDP Designation. Any person so certified may use the CDP designation immediately following his/her signature on letters, reports, articles and/or any other publications, and use the title Certified Development, Design and Construction Professional, ICSC, on individual letterheads, business cards, seals and professional forms. The use of such title or designation by any firm, group, agency, partnership or corporation is specifically prohibited; and any use of its application to any group, other than the individual so designated, is specifically prohibited. The title or designation shall always be used in such a manner as to dignify the profession, and in accordance with any rules and regulations governing such use, which may hereafter be adopted by the Board of Trustees or the Committee.

3.04 Expulsion

Upon recommendation of the Committee and after a hearing conducted by the Committee, a CDP certification may be canceled upon the vote of two-thirds or more of the Trustees present at a meeting of the Board of Trustees, if a person previously certified:

- a) Is convicted of a felony or any crime or misdemeanor involving moral turpitude;
- b) Is declared incompetent or insane by a court having jurisdiction; or
- c) Refuses to abide by or observe these Rules and Regulations, the Code of Professional Ethics or such other rules adopted by the Board of Trustees.

3.05 Effect of Resignation or Expulsion

In the event of resignation or expulsion of any CDP, or during any period of suspension, such person shall cease to use any marks or identification as a Certified Development, Design and Construction Professional.

**ARTICLE IV.
FEES AND CHARGES**

4.01 Application Fee

Each application for certification from a member of ICSC shall be accompanied by the appropriate fee. Each application for certification from any other person shall also be accompanied by the appropriate fee. In the event that the applicant fails to fulfill the minimum qualifications for taking the examination as set forth by the Committee, under Article II of these Rules and Regulations, a designated portion of the application fee will be refunded.

**ARTICLE V.
CDP COMMITTEE**

5.01 Standing Committee

CDP Admissions and Governing Committee is hereby created to assist the Board of Trustees in connection with the administration of these Rules and Regulations.

5.02 Composition of Committee

The Committee shall consist of a chairperson and at least nine members of ICSC appointed by the President of ICSC with the approval of the Board of Trustees. All members shall be appointed for three-year terms. No member shall be eligible to serve more than six consecutive years. Persons who have held appointment for six consecutive years may be reappointed only after one year's absence from the CDP Committee.

5.03 Duties of Committee

This Committee shall oversee the preparation, administration and grading of the written examination and shall award the CDP Designation, subject to appeals of disputes as provided in Section 2.05. The responsibilities of the Committee shall also include receiving and investigating complaints brought by responsible individuals alleging violations of the Code of Professional Ethics by a CDP in the performance of his/her business duties. Following its investigation and following a hearing at which the CDP shall be given the opportunity to respond to complaints and to present testimony, the Committee may, by an affirmative vote of not less than two-thirds of its members, refer the matter to the Board of Trustees with its recommendation.

5.04 Meetings

The Committee shall meet at least once a year. Special meetings may be called by the President of ICSC or by the Committee chairperson.

5.05 Quorum

The Committee may take action by vote of a majority of its members if a quorum is present. A quorum shall consist of one more than 50 percent of the total number of the Committee.

5.06 Reports

The Committee shall make an annual report to the Board of Trustees of ICSC.

**ARTICLE VI.
ADDITIONAL REGULATIONS**

6.01 Effect

All Rules and Regulations now or hereafter adopted shall be binding upon all persons holding certificates as Certified Development, Design and Construction Professionals.

6.02 Publications

All Rules and Regulations shall be published in proper form and made available.

ARTICLE VII.

These Rules and Regulations may be amended by the Board of Trustees, upon recommendation approved by a two-thirds vote of the Committee.
